THE MERCIAN GEOLOGIST
Journal of the East Midlands Geological Society

The journal first appeared in December, 1964. The following numbers have since been published:-

Vol. 1 No. 1 December 1964
Vol. 1 No. 2 June 1965
Vol. 1 No. 3 January 1966
Vol. 1 No. 4 September 1966
Vol. 2 No. 1 January 1967
Vol. 2 No. 2 June 1967
Vol. 2 No. 3 December 1967
Vol. 2 No. 4 August 1968
Vol. 3 No. 1 January 1969

The journal deals especially with the geology of the Midlands of England, but other articles have been accepted which are of current interest to geology generally. Manuscripts should follow the format of papers included in this number of the Journal and be sent to The Editor, "Mercian Geologist", at the address below.

In Vol. 1, there are 25 original articles, 5 general papers, 2 Presidential addresses, 10 excursion reports and a number of book reviews. It comprises 383 pages, 24 plates, numerous text figures, an index, title page and cumulative contents list.

Vol. 2 has a similar content, except that the second number of this volume was devoted to a bibliography of the geology of the Peak District of Derbyshire compiled by Dr. T.D. Ford and Dr. M.H. Mason. It contains 450 pages and 25 plates.

All parts of the journal, which is issued bi-annually, are available. It may be obtained by membership of the Society and by subscription as indicated below:-

Ordinary Membership	25/- annually
Institutional Membership	25/- annually
Joint Membership (Husband & Wife)	30/- annually

Single copies are supplied at 15/- (12/6d to members). Multiple copies at 12/6d each. (Vols. 1 and 2 are priced at £3 2s 6d each complete).

Librarians in overseas institutions may care to take advantage of exchange agreements, whereby the "Mercian Geologist" is exchanged for other original geological journals. This exchange scheme is organised through the Department of Geology, University of Nottingham, England, and not through the Society.

All enquiries for current subscription rates, details of back numbers, and exchanges should be addressed to:-

Dr. F.M. Taylor,
Department of Geology,
The University, Nottingham, MG7 2RD,
England.

Overseas subscribers may care to use facilities offered by B.H. Blackwell, Broad Street, Oxford, England, or through booksellers and agents in their own country.
