December 2013**

Registered Charity No: 503617

President: Brian Jones

www.emgs.org.uk

In 2014 the Society will be celebrating its 50th Anniversary. We are hoping to put on a programme of events and Field Trips which will recognise the significance of this occasion, commencing with the Foundation Lecture to be given by Professor Iain Stewart on 15th February followed by the Anniversary Dinner. We do hope that as many members as possible will join us in supporting both the Lecture and the Dinner and we advise booking your ticket for both as early as possible to avoid disappointment.

WINTER 2014
LECTURE PROGRAMME

Saturday, 18th January 2014 – 6.00 pm

Shale Gas

Speaker: Nick Riley

Saturday, 15th February 2014 – 6.00 pm

The EMGS 50th Anniversary Special Lecture

Speaker: Professor Iain Stewart

Iain Stewart will be known to many of you for the wide range of inspiring geological programmes he has presented on television bringing his enthusiasm for the science of geology to a wide audience.

His theme will be the amazing developments that have taken place in geology over the 50 years that The Society has been in existence.

*The meeting will be an **all ticket** event due to the anticipated interest in the speaker. Once we have established the demand from members for tickets (free to members and £3.00 to non-members) they will be advertised to the general public.*

So as to ensure a seat on the night, **please book your tickets** by contacting the Secretary, Janet Slatter, by 10th January 2014 at meetings, or at:

100 Main Street, Long Whatton, Loughborough, Leics. LE12 5DG 01509 843297
secretary@emgs.org

The talk will be followed by a special **50th Anniversary Dinner** – menu and booking form are enclosed in this Circular.

Saturday, 15th March 2014 – 6.00 pm

AGM to be followed by:

Quaternary Glaciations of the Midlands and East Anglia

Speaker: Jim Rose

Saturday, 12th April 2014

Sinking Cities

Speaker: Tony Waltham

LECTURE VENUE

The Southern and Eastern access roads to the University have been closed due to the tram works on University Boulevard and within the University Park. There is an alternative access signed 'University Only' from Clifton Boulevard, otherwise please use the Northern or Western access roads.

Indoor meetings will take place in lecture theatre B3 of the Biology building at the University of Nottingham. If you require to use the lift to B3, please speak to the security attendant who will assist you. B3 is equipped with induction loop hearing assistance. If you are attending meetings or joining a coach at the University of Nottingham, enter from the South Entrance on University Boulevard. Cars should be parked in the car park on the bend in the road just beyond the security point after Science Road. The entrance to the Biology building is at the right hand side of the rear of this car park.

Saturday, 18th January 2014 – 6.00 pm

Shale gas – a curse or blessing? A geologist's view

The media tends to portray shale gas as either a wonderful opportunity for cheap energy and economic regeneration, or as an environmental threat that must be nipped in the bud. There are many opinions given by politicians, campaigners and journalists. Air time and printed media only rarely contain informed views from geologists. So this is your chance to gain an informed view from a geologist who is actively engaged with shale gas exploration, greenhouse gas emission reduction and the broader energy landscape.

Saturday, 15th February 2014 – 6.00 pm

The EMGS 50th Anniversary Special Lecture by Professor Iain Stewart

Between a rock and a hard place: communicating geoscience to the public

Geologists are increasingly being encouraged to present their work to the wider public, and even to advocate more directly its policy dimensions. Yet how can we do that when, for most people, geology is about 'stones' and stones are 'boring'? This talk will explore how geoscientists can

make rocks popular in a myriad of ways, not least ditching a fixation for facts and being better telling better stories.

EMGS Website

The publications page on the Society website (www.emgs.org.uk) has been tidied up and updated. It now includes links to two archives:

One is the archive of the early Mercian Geologists where scanned copies of complete issues are being diligently prepared thanks to the hard work of David Bate. This is still being added to (with successive volumes) and will eventually reach volume 12 for 1991.

The other is the archive of papers and reports in the more recent issues. These will go onto the webpage two years after they appear in the paper issues of the Mercian. Currently only the 2009 material is online, but files will be extracted and posted, working backwards as far as 1992, and this takes time. Files for 2010 onwards are already prepared and will go online on their second birthday.

e-mail addresses

To minimise postal costs and photocopying charges which amount to approximately £4.00 each year for every member who still receives their Circular by post, we would very much like to send you your Circular by e-mail. If you have not already done so, please send your e-mail address to the Circular Editor, sue.miles@freethcartwright.co.uk.

Please can you also confirm your name and address when sending your e-mail so we can correlate these details with our membership listing.

The next Circular will be published in February 2014.

The next Council Meeting will be held on 17th January 2014.
